

A JOURNEY to the MAYALANDS of MEXICO & GUATEMALA;
Where dreams and reality merge
February 12-26th 2011

There is nowhere in world more important at this time, than the lands inhabited by the Maya. These highly evolved ancient architects of our reality instilled their sacred sites with the wisdom of universal truth. The Maya then created calendars to explain the cyclical activity of the universe, designing their temples to reflect this understanding.
